Good morning Betsy,
I will check in with you this afternoon after I've read through a few things to get a sense of what's new.
Talk soon,
Joe

Subject: Pebble Mine FEIS - fish comments

Hi Joe,

Good morning. This is a quick follow-up to the voice message I just left you. I'm circling back on our group call last week regarding our focus for the review of the Pebble Mine FEIS.

Based on what you are seeing so far in the FEIS, I'm interested to hear where you think you are able to provide input, or where the agency's focus should be. I mention a couple of thoughts in my voice message related to fish habitat, time permitting.

Anyway, just wanting to stay closely collaborative as I review the document and during this very short review timeframe for the FEIS.

Thank you,
Betsy
